

## Turbo-Spritze VSP 2235 Storz C

---

Art.-Nr. 10072803

The AWG Turbo-Nozzle with full jet look is designed to fight various type of fires. These nozzles can be used for internal as well as outside attack. The additional full jet lock (FJL for short) is the simplest way to prevent unintentional switching to the full jet. The intuitive operation (pull the beam tube head forward) is easy to handle without much training effort.
